Self-Awareness

A person entering Level 4 of Deep D. becomes cognizant of his being. Not just as a forgotten speck of dust in a dark corner of the Universe, but rather, of major importance to Creation and to Evolution. He realizes he is not just a mistake that just happened on the planet, rather he has a true purpose in life, a true mission to fulfill. He becomes aware that he is a part of God, as is all things, and that he is one with all things. He becomes aware that he is one with all things, for he realizes within himself that all things, including himself are God in Expression and at-one-with-God. He becomes aware of a greater life within him, That life of God. And the Expression of the God part of him, flowing into the Physical outer world through him. This Expression is love, for we are the love of God in Expression.

The Master's Advice -

"I know that your one object in life is to serve the Brotherhood, yet do not forget that there are many steps before you, and that progress on the Path means sleepless vigilance. You must not only be always ready to serve, you must be ever watching for opportunities, may, - making opportunities to be helpful in small things, in order that when the greater work comes you may not fail to meet it."

Level I of A Group

- A. Self Awareness
 - B. Self Understanding
 - C. Self Development
 - D. Spiritual Insight
- } Prepares the individual

Level II

- A. Group Unity & Love
- B. Group Purpose
- C. Group Service
- D. Group Development

Level III

- A. Development of Christ Body Energy
- B. Receiving and working on Group's Specific Service in the Great Plan
- C. Group Initiation into Greater Mysteries
- D. Quiet teachings from the Director of Humanity - the Masters

Level I

Level I works towards helping the individual discover: "who he is - what he is from - what he is going"
Prepares him through self understanding
for the work ahead - that of Group work -
for if one cannot accept oneself and
work with himself in harmony, then
he will be unable to work within a
group and maintain harmony with the
group.

Level II

The members of these groups must be mature souls who are ever-working on improvement of self, outside of the group.

They must have established a foundation of esoteric knowledge and have somewhat stabilized themselves physically, emotionally, and mentally.

The members of these groups must set aside all personal needs, all the lower personality characteristics and strive within the meeting to bring about a unity which will aid the group, the world, and the universe.

"Group Purpose"

To establish and maintain "Golden Network of Light"

- A. Will stimulate the minds of men and women all over the world.
- B. Will "free" the energy of the will-to-good into the world.
- C. Will bring about an unconscious awakening of the people of the world.

Level III

Through Group Study - Med. - Service -
the group grows in wisdom and the thread
of light between the group and the Hierarchy
grows stronger. As the group advances
and the energy or vibration of the group
rises higher and higher an energy is
developed spiritual unity of the Group -
The Christ Body Energy - which when
fully developed shall be used by the
Masters as an instrument through
which to teach the Group and spread
forth the Teachings as a living word.

Self Understanding -

At Level I of S.D. w/ self awareness comes into Self Un. Mr. of self in all the different aspects of his life. He begins delving into why he acts & reacts to situations the way he does. Is it parental and environmental conditioning or is it his own personality expressed? Does he like that form of expression or would he like to change it? Why? What are his fears, his long held hates, what drives him on, or holds him back?

Through working in S.D. I a person delves into her true self and begins seeing himself as he really is as others see him. He begins working w/ th Com., Subcon. minds and understanding how they relate and how to relate with them.

One gets an understanding of who he is, why he is where he is - what he is all about.

Self Development

Self Development - ~~the~~

Development of inner potential
of himself. Develop his mind to
expand his mind, to see new horizons
and realize there is much to live
beyond what he thought

Development of an open mind
to look at all things & to ~~exp~~ except
that that he can, & rather than reject
something, if he sees it needed
~~tel he feels he wants to look at it~~
~~again~~
